

Connor Grant

“I am overwhelmed with the cards, they are stunning and the overall impact on my clients is incredible”

Connor Grant, a media and marketing specialist, the “all round media go-to-guy” and a founder of Grant Studios wanted business cards that were like no other, a business card that was unforgettable.

Connor found Metal Card Co through Instagram and got in contact after seeing a card that caught his eye. He loved the look of our Flow Bar Frome’s deep etched, green and gold VIP member cards, and after receiving a sample card was sold on the unique, textured design with gold detailing.

Connor’s chosen design consisted of a matt black, deep etched surface with a gold border and logo, and it doesn’t end there, turn the card around and you are presented with a sleek, smooth gold surface, finished with matt black writing and a custom QR code. This is a card you cannot miss.

Connor goes on to say that the gold back and detailing makes the cards unique and one-of-a-kind, his clients have expressed it is nothing like they have ever seen before and he believes the exclusiveness of the cards means people keep hold of them.

“The cards show a premium service which is exactly what I wanted them to do”
